The theme for this WSCM is **Changing Horizons** and aims to attract representation from all regions in the world, including as many styles and traditions of ensemble singing as possible, in order to honour and celebrate the human practice of singing together. The symposium will explore the current world of choir music and what singing together could look like in the near and far future. What better place to hold this exciting event than Istanbul, the only transcontinental city in the world? The event promotes artistic excellence, cooperation and exchange, by bringing together the finest choirs and choral leaders for performances, seminars, workshops, exhibitions and choral reading sessions.
